I'm not going to comment about the basic concept programme because it was fruitful to me. The teacher was very active in the lesson.

Now to understand how to teach in a high order of basic concepts. Because we usually used to tell the learners instead of questioning them. The sequencing and pacing were made clear of how to use the steps and how you can see if they understood the concepts.

Now I know how and when to start teaching and using the 6 steps, mediation, higher and lower order. To let the child think for themselves and not to give them clues when they are struggling for an explanation.

2/13/2014 7:52 AM [View respondent's answers](#)

I understand the higher order concepts. It taught me how to teach the concepts, using the steps. It will help learners to use the language properly. It made it easier to do intervention for learners at risk.

Each and every workshop you gain more experience. We did these things in our classes but not knowing we did the right thing. Because we do writing in the air.
