

**NAMAQUA DISTRICT  
DEPARTMENT OF EDUCATION**

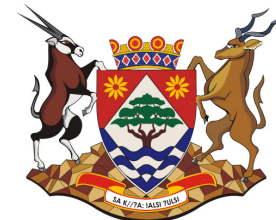

**A BASIC CONCEPTS PROJECT  
FOR GRADE R TEACHERS (2010-2012)**

**Test Results Of Grade 1 Learners  
(2012)**

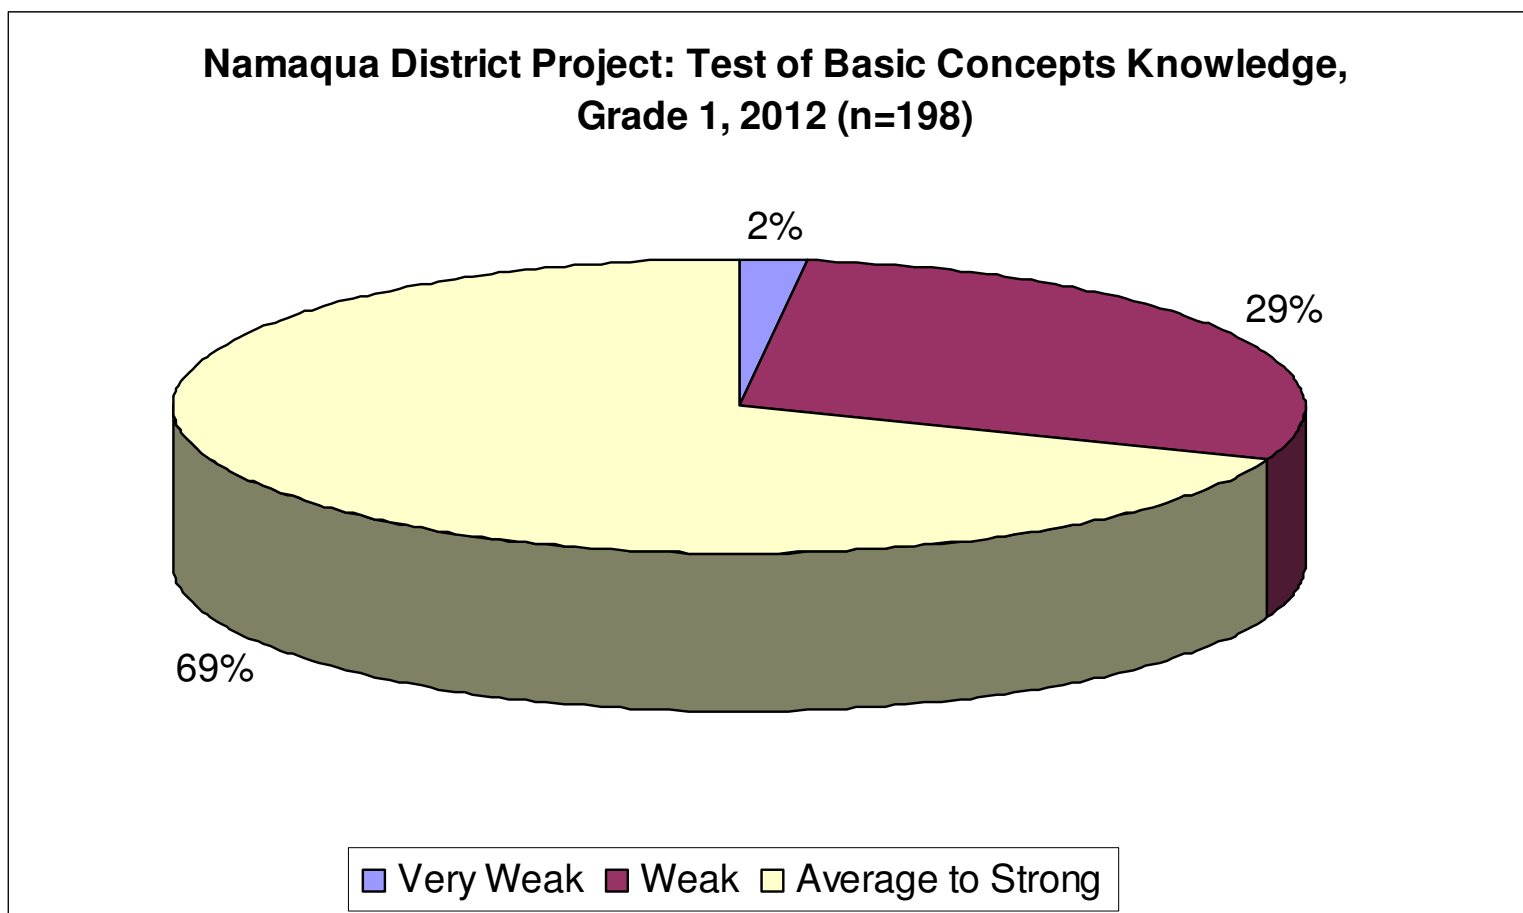

## METHOD

- 42 Grade R practitioners were trained to implement the Basic Concepts Programme with all their learners.
- Learners who participated in the Basic Concepts Programme in Grade R in 2011 were tested during the first term of Grade 1 2012.
- A sample of 198 learners from 8 schools were tested – this represented 20% of the learner population.
- The learners were tested by the researcher.

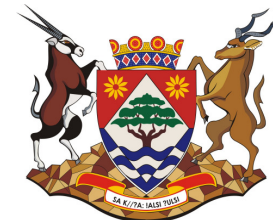

## SUCCESSSES OF THE PROJECT

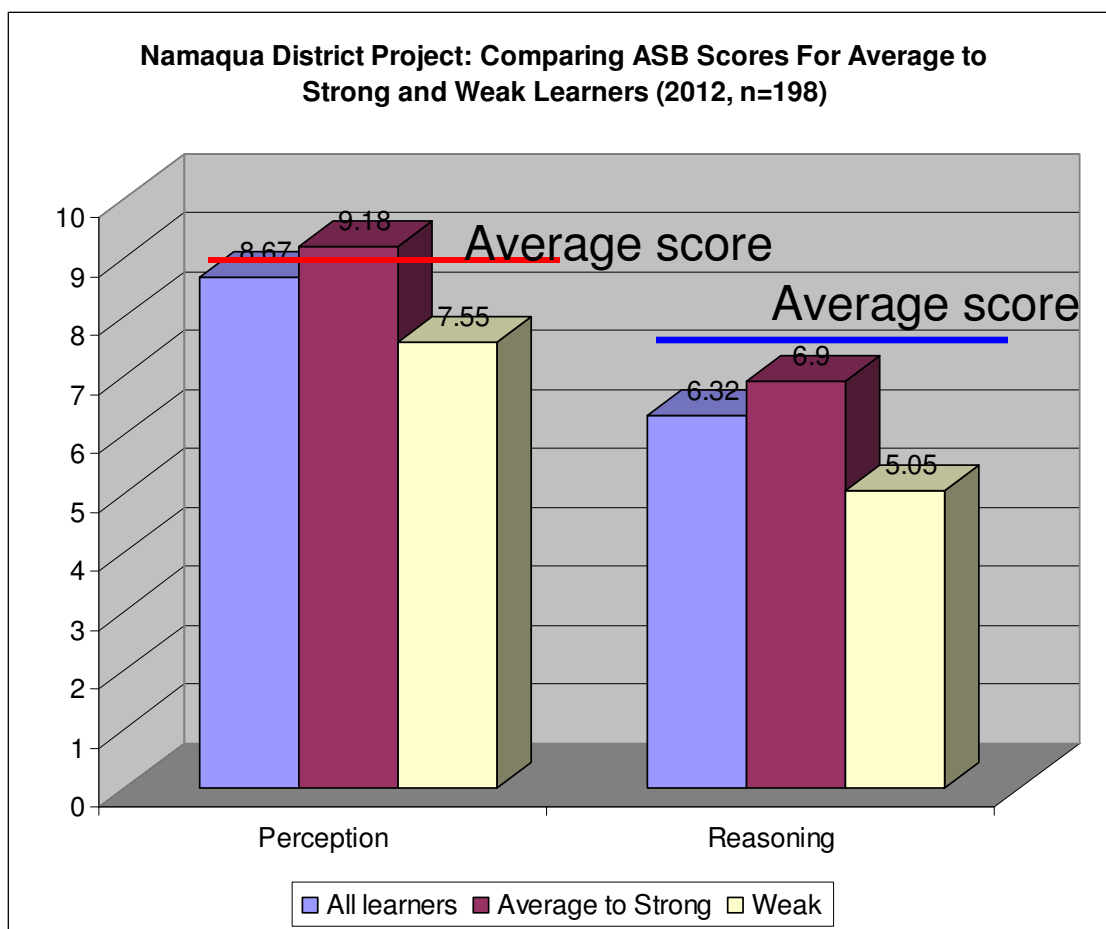

### Learner Results Following Intervention

# NAMAQUA DISTRICT DEPARTMENT OF EDUCATION

## SUCCESSSES OF THE PROJECT Learner Results Following Intervention

### Rationale:

Two sub-tests of the ASB were administered to all learners in order to make comparisons with the TBCK results.

### Finding:

Learners who attained average to strong scores on the TBCK attained above average scores on the perception sub-test and just below average scores on a reasoning sub-test.

### Conclusion:

The TBCK test results seemed to match with the results attained on the ASB for different groupings of learners.

A BASIC CONCEPTS PROJECT  
FOR GRADE R TEACHERS (2010-2012)

**SUCCESSSES OF THE PROJECT**  
Learner Results Following Intervention

***The majority of learners  
(69%) who participated in the  
intervention programme in  
Grade R are school ready.***
